Inject Number: 27

Inject Duration: 45 Minutes

Inject Start Date/Time: Sat, 05 Mar 2016 21:33:25 +0000

From: IT Auditors

To: Infrastructure Support Teams

Subject: Internal Assessment

Using NMAP from internal hosts on EACH segment scan the other hosts to enumerate the available services per host. Create a table for EACH segment that lists the host address and services that are available and a comment as to where that service is needed on that host. Develop a management memo with the tables to document your results.

Thank you.
