

**Team:** Team 6

**Inject Number:** 10

**Inject Duration:** 45 Minutes

**Inject Start Date/Time:** Sat, 05 Mar 2016 16:52:52 +0000

**From:** IT Auditors

**To:** Network Support Team

**Subject:** External Services Self Assessment

Use the Windows-7 workstation on the external segment to run NMAP and discover all the services that are available from the outside. Write a management memo that documents your findings. Enumerate in a table the host-id, service (protocol and port) and a comment that the service is needed or not needed as an externally available service.

Thank you.
